A "Certificate" is a digitally signed

The Certificate for which you have applied on behalf of your organization is a High Assurance organizational Certificate within the Thawte PKI. High Assurance organizational Certificates are issued to Devices to provide authentication, message, software, and content integrity and signing, and confidentiality encryption. High Assurance organizational Certificates provide assurances of the identity of the Subscriber based on a confirmation that the Subscriber organization does in fact exist, that the organization has authorized the Certificate Application, and that the person submitting the Certificate Application on behalf of the Subscriber was authorized to do so. The Certificate also provides assurances that the Subscriber is entitled to use the domain name listed in the Certificate Application, if a domain name is listed in such Certificate Application.
